PRESS RELEASE

ACMF SUPPORTS INDONESIA CAPITAL MARKET STRATEGIC REFORM AND STRENGTHENING

Jakarta, 28 October 2026. Indonesia Financial Services Authority (OJK) welcomes the strong support from the ASEAN Capital Markets Forum (ACMF) for Indonesia's strategic capital market reforms, particularly in enhancing transparency, strengthening law enforcement, and increasing market liquidity to facilitate a more credible, integral, and globally competitive national capital market.

ACMF is a sectoral body in ASEAN, a forum of capital market regulators from 11 ASEAN member states, where OJK is actively involved in the working groups and High-Level Meetings. The support was conveyed during the 45th ACMF Chairs Meeting held in Manila, the Philippines, on 25 October 2026. Chaired by the Securities and Exchange Commission (SEC) of the Philippines, the meeting brought together heads of ASEAN capital market authorities, including OJK, to discuss efforts to strengthen regional capital market integration, resilience, and sustainability.

In its official statement, the ACMF voiced strong support for Indonesia's ongoing strategic reform efforts to further advance the development of the national capital market. The ACMF also acknowledged the progress made in Indonesia's regulatory reforms and reaffirmed its support for successful implementation and long-term impact of these reforms.

ACMF placed Indonesia as an important member in ASEAN capital market regulator collaboration. The support also shows the joint commitment with regional capital market authorities to increasing transparency, improving the effectiveness of law enforcement on market violations, enhancing market liquidity and continuous capital market development.

OJK appreciates ACMF's support as an important regional endorsement of Indonesia's capital market reform agenda and as a catalyst for further strengthening the integrity, credibility, and competitiveness of the national capital market.

OJK is committed to consistently and continuously proceed with its capital market reform agendas through governance enforcement, improving the quality of information disclosure, legal supervision and law enforcement effectiveness, and efficient, liquid, and transparent market structure development.

These measures are OJK's efforts in enhancing investor protection, increasing market participants' confidence, and ensuring Indonesia capital market's development in accordance with the international best practices and standards.

ASEAN Capital Market Integration Optimization

In addition to showing support to Indonesia, ACMF meeting discussed the ACMF Action Plan 2026-2030 implementation progress, including capital market connectivity, corporate governance enforcement, sharia capital market development, and legal supervision and law enforcement collaborations.

To strengthen market connectivity, ACMF proceeds with several strategic initiatives, namely Depositary Receipt Issuance Handbook, Roadmap for ASEAN Cross-Listings, ASEAN Indices, and ASEAN Collective Investment Schemes to expand cross-border investment and to strengthen ASEAN's position as a global investment destination region.

ACMF also continues to promote sustainable financial developments, improve sustainability information disclosure quality, and practice good corporate governance to boost ASEAN capital market appeal and credibility.

OJK will continue to actively participate in ACMF initiatives and nurtures cooperation with regional capital market authorities to develop an inclusive, integrated, resilient, and sustainable Indonesia capital market.

Through the implementation of domestic reforms and the strengthening of regional cooperation, OJK remains optimistic that Indonesia's capital market will make an increasingly significant contribution to national economic growth while further strengthening its position within ASEAN and the global capital market.
