# IKHTISAR JAMINAN SOSIAL DI INDONESIA

*OVERVIEW OF SOCIAL  
SECURITY IN INDONESIA*

## Ikhtisar Jaminan Sosial Di Indonesia *Overview Of Social Security In Indonesia*

Sistem Jaminan Sosial Nasional (SJSN) merupakan amanat Undang-Undang Dasar Tahun 1945 yang mewajibkan negara untuk mengembangkan sistem jaminan sosial bagi seluruh rakyat Indonesia. Pembentukan SJSN dimulai dengan diterbitkannya Undang-undang nomor 40 Tahun 2004 tentang Sistem Jaminan Sosial Nasional. Berdasarkan ketentuan ini, diamanatkan untuk membentuk suatu badan penyelenggara jaminan sosial yang berbentuk badan hukum publik dan bersifat nirlaba, yang kemudian dikenal dengan Badan Penyelenggara Jaminan Sosial (BPJS).

BPJS dibentuk melalui Undang-Undang nomor 24 Tahun 2011 tentang Badan Penyelenggara Jaminan Sosial (UU BPJS). Guna mendukung pelaksanaan UU BPJS tersebut, Pemerintah telah mengalokasikan anggaran untuk persiapan pelaksanaan SJSN, antara lain berupa penyertaan modal negara kepada BPJS, peningkatan kapasitas puskesmas, dan rumah sakit milik Pemerintah. Selain itu, Pemerintah juga menyediakan anggaran untuk peningkatan kesadaran masyarakat akan manfaat pelayanan kesehatan, serta anggaran sosialisasi, edukasi dan advokasi kepada masyarakat tentang SJSN dan BPJS.

*The National Social Security System (NSSS) is a mandate of the 1945 Constitution which obliges the state to develop a social security system for all Indonesian people. The formation of the National Social Security System began with the issuance of Law No. 40 of 2004 concerning the NSSS. Based on this provision, it was mandated to establish a social security administering body in the form of a public legal entity and non-profit, which was later known as the Social Security Agency (SSA).*

*SSA was formed through Law number 24 of 2011 concerning the Social Security Organizing Agency Law. In order to support the implementation of the SSA Law, the Government has allocated a budget for the preparation of the NSSS, among others in the form of state capital participation to SSA, capacity building for health centers, and government-owned hospitals. In addition, the Government also provides a budget for increasing public awareness of the benefits of health services, as well as a budget for socialization, education and advocacy to the public about NSSS and SSA.*

BPJS terdiri dari BPJS Ketenagakerjaan dan BPJS Kesehatan. BPJS Ketenagakerjaan merupakan transformasi dari PT Jamsostek (Persero) yang menyelenggarakan program Jaminan Hari Tua (JHT), Jaminan Kecelakaan Kerja (JKK), Jaminan Kematian (JKM), dan Jaminan Pensiun (JP). Pada Tahun 2021, Presiden Joko Widodo telah menerbitkan aturan resmi mengenai penyelenggaraan program Jaminan Kehilangan Pekerjaan (JKP) bagi pekerja/buruh yang menjadi korban pemutusan hubungan kerja (PHK) pada 22 Februari 2021.

Ketentuan yang dimaksud adalah program terbaru dalam BPJS Ketenagakerjaan, yakni Jaminan Kehilangan Pekerjaan (JKP) yang telah tertuang dan disahkan ke dalam Peraturan Pemerintah (PP) Nomor 37 Tahun 2021 tentang Penyelenggaraan Program Jaminan Kehilangan Pekerjaan. Aturan ini merupakan turunan dari Undang-Undang (UU) Nomor 11 Tahun 2020 tentang Cipta Kerja.

Berdasarkan kebijakan ini, pemerintah memberikan jaminan sosial kepada pekerja/buruh yang mengalami PHK dalam bentuk uang tunai, akses informasi pasar kerja, dan pelatihan kerja melalui program JKP yang diselenggarakan oleh BPJS Ketenagakerjaan (Pasal 2 ayat 1 PP 37/2021).

*SSA consists of SSA of Employment and SSA of Health. SSA of Employment is a transformation of PT Jamsostek (Persero) which organizes Old Age Security, Employment Injury Security, Death Security, and Pension Security. Dalam rangka menjaga keberlangsungan penyelenggaraan jaminan sosial oleh BPJS, Pemerintah menyadari perlunya pengawasan yang secara struktural dapat memantau perkembangan BPJS secara komprehensif. Pentingnya pengawasan dimaksud telah dituangkan dalam ketentuan Pasal 39 UU BPJS serta penjelasannya yang mengatur bahwa pengawasan BPJS dilakukan secara internal dan eksternal.

In addition, Law number 21 of 2011 concerning the Financial Services Authority explains that IFSA has the authority to carry out regulatory and supervisory functions for all financial service institutions in Indonesia, including SSA.*

Selain itu, pada Pasal 13 UU BPJS diamanatkan bahwa pencatatan keuangan (pembukuan) mengacu kepada Standar Akuntansi Keuangan yang berlaku.

Terkait dengan pelaporan, BPJS diwajibkan untuk menyampaikan laporan keuangan dan laporan pengelolaan program kepada OJK. Laporan keuangan yang disampaikan kepada OJK terdiri dari laporan keuangan bulanan, semesteran, dan tahunan (*audited*).
